FARMING PAYS BIG. During the last few years you have heard a great deal about "back to the soil."

You've heard of the wonderful oppor-unities, how well farming pays, etc.

And you've wondered if these things really could be true. The fact is, they are true. Opportuni-ties and chances for success, such as you never dreamed could exist, becken you.

You've heard how men have achieved an independence within a few short years.

You can get started in this valley on practically nothing. There is no excessive outlay for water rights, no big price for fertilizer. Your total farm cost is the acreage cost. And that is low: \$15 to \$25 per acre on five

WONDERFUL PAHVANT VALLEY, UTAH. Read what one farmer has done.
What he has done you can do.
Fillmore, Utah, Jan. 4, 1913.
Mr. N. A. Anderson, Fillmore, Utah:
Dear Sir—In reply to your inquiry I
beg to advise you that during the year
1911 I produced 300 bushels of first-class
affalfa seed on 30 acres of land in the
sub-irrigated district west of Meadow;
and during 1912 I harvested 508 bushels
of first-class seed on 40 acres of subirrigated land in the same district.
With proper treatment of the soll and
growing crops, I am confident that I can
produce the same or better crops each and
every year, and I would not consider any
price for my land.

price for my land.
You ask whether or not I would consider a price of \$300 per acre, and I beg to advise you that this land is worth more to me than the figure you suggest, and I would not consider that price even though I cared to sell. This is my home and I do not care to sell at all.

Very truly yours,

EDWARD B. BUSHNELL.
